## Amplified, Sealed Systems

### Position:

JL Audio's low-profile, sealed enclosures powered by our exclusive amplifier technology creating all-inclusive bass packages that fit in the tightest of spaces.

### FEATURES:

- Low-profile enclosure designs unites our proprietary DCD™ amplifier with low-impedance drivers
- Optimized sealed design generates amazing sub-bass output
- Flexible input section accepts line-level or speaker-level outputs
- 12dB/oct. low-pass filter with 50-200 Hz variable frequency selection
- Automatic turn-on options via Signal-Sensing or DC-Offset sensing
- Remote level control with optional controller (RBC-1)
- High-quality black carpet with embroidered logo
- Steel mesh woofer grille provides woofer protection
- 2-Year Warranty (Note: Warranty terms may differ outside of USA.)
- Enclosures and Subwoofer Drivers Built in USA

### TW1 Low-Profile Models:

#### **ACS110LG-TW1:**

Single 10TW1, sealed enclosure,  
Built-in 400W amplifier

#### **ACS112LG-TW1:**

Single 12TW1, sealed enclosure,  
Built-in 400W amplifier

## Low-Profile

### Position:

These low-profile, flat enclosures are designed to fit into tight spaces and feature our patented, thinline TW3 & TW1 subwoofer drivers for outstanding performance.

### FEATURES:

- Flat, low-profile enclosure design
- High-quality black carpet with embroidered logo
- Steel mesh grilles provide woofer protection
- Gold-plated, five-way binding post terminal
- 2-Year Warranty (Note: Warranty terms may differ outside of USA.)
- Enclosures and Subwoofer Drivers Built in USA

#### TW3 Low-Profile Models:

##### **CS110LG-TW3:**

Single 10TW3, sealed enclosure, 400W, 2 ohm

##### **CS112LG-TW3:**

Single 12TW3, sealed enclosure, 400W, 2 ohm

#### TW1 Low-Profile Models:

##### **CS110LG-TW1:**

Single 10TW1, sealed enclosure, 300W, 2 ohm or 4 ohm

##### **CS112LG-TW1:**

Single 12TW1, sealed enclosure, 300W, 2 ohm or 4 ohm

##### **CS210LG-TW1:**

Dual 10TW1, sealed enclosure, 600W, 2 ohm

##### **CS212LG-TW1:**

Dual 12TW1, sealed enclosure, 600W, 2 ohm

## Pickup Trucks

### Position:

High-quality sealed subwoofer systems, specifically designed for pickup trucks.

### FEATURES:

- Rear-firing enclosure design or angled front baffle to fit behind seats of pickup trucks
- High-quality black carpet with embroidered logo
- Steel mesh grilles provide woofer protection
- Gold-plated, five-way binding post terminal
- 2-Year Warranty (Note: Warranty terms may differ outside of USA.)
- Enclosures and Subwoofer Drivers Built in USA

#### TW5v2 Pickup Truck Models:

##### **CS113TG-TW5v2:**

Single 13TW5v2, sealed enclosure, 600W, 2 ohm

#### TW3 Pickup Truck Models:

##### **CS110TG-TW3:**

Single 10TW3, sealed enclosure, 400W, 2 ohm

##### **CS112TG-TW3:**

Single 12TW3, sealed enclosure, 400W, 2 ohm
